## About Me

I am an aspiring computer science engineer with a passion in programming, currently pursuing my Bachelor of Engineering degree from Chandigarh University. I am a well-organized, creative and a goal-oriented person possessing excellent communication, problem solving and leadership skills, currently hustling to acquire an academic background in full stack web development, data science and Artificial Intelligence.

## Education

Bachelors in Computer Science Engineering I  
Chandigarh University, Gharuan Session:  
2021- 2025

Intermediate (CBSE) | Shannen Kid's School  
Vadodara, Gujarat 2019-2021

Matriculation (CBSE) | kendriya Vidyalaya  
Vadodara, Gujarat 2018-2019

## Projects

### Music Player

Created a music player just like Spotify using HTML, CSS, JavaScript and Bootstrap. The web page responds well with the user's environment and preferences.

### Instagram Login page clone

Cloned the Instagram Login web page frontend, using HTML and CSS, which is completely responsive.

### Virtual Keyboard

It is my mini project in which I have developed a virtual keyboard. You can type using it in the space given.
